**Subject:** Application for the nurse position - 50% FTE

Dear Madame Appeldooffre,

Your job offer for the nurse position caught my attention, which is why I am delighted to submit my application. Seeking a change for several months now, the excellent reputation of your clinic and its care management in particular were the key drivers that motivated me to respond to your job offer.

I am truly passionate about my job, and have been since a young age.

In my 15 years of experience, I had the opportunity to work in different departments such as oncology, paediatrics and psychiatry. I was also head nurse at the Hôpital de la Couronne for more than 5 years, a role with many responsibilities. My career journey up to now has enabled me to acquire strong technical, efficiency and independent work skills. Above all, it is the human touch and comfort I bring to patients during the difficult times in their lives that fosters the passion I have for nursing.

My main qualities include speed, prioritising tasks, methodical care and a sharp mindset.

In this position, I can bring professionalism and precision, in addition to a strong empathy for patients and positive communication skills. I am also able to quickly integrate into a team, and I know how to find my place within a new work environment. I hope this letter was able to grab your attention and I look forward to hearing from you.

Best regards,

Myriam Seringue
